© 2007 National Dental Network

Now that you can watch live-patient procedures directly on your computer, the whole world is your theatre—or treatment room!

Michael Miyasaki, DDS  
VP of International Operations  
LVI Global

Mike Milne, CDT  
Director of Laboratory  
Technician Programs  
LVI Global

In this 4-hour LIVE-PATIENT program, Dr. Miyasaki and Mr. Milne demonstrate their approach to ensure clinical success in an esthetic case. You will see how pre-planning steps utilizing tools such as smile design, lab communication, and fabrication of diagnostic models and guides, make the case less stressful and the outcome more predictable. Preparation considerations, temporization and cementation protocols are also shown.

**You will learn:**

- Assessing the appropriate patient for esthetic dentistry
- Lab communication prior, during and after treatment
- Preparation, temporization and cementation techniques for predictability
- Functional issues to consider and manage

**Includes 4 CE Credits. Complete satisfaction guaranteed.**
